

June 2016, Prague

GEONE Real Estate a.s. acquired the residential project at Prague 4

Záběhlice, Žilinská street - there we plan a residential rental project 9,000 m², which will offer more than 100 flats for medium and long-term rentals. In close proximity, there are a nursery school and park. In the neighborhood there is Roztyské Square with Tesco Express, restaurants and other civic amenities.

„Our goal is to create a modern, high-quality and affordable residential product designed not only for families with children. The flats will provide our clients superior comfort of rental housing combined with fully equipped flats.“, says Daniel Černík, project manager.

We believe that the local bonding and the well-executed construction will attract to potential tenants. The expected completion of the project is in 2021.

For more information about the project, please visit the website www.geone.cz.
